The United States Shipbuilding Company is known as the "Shipbuilding trust." It was first planned in 1991 but was not operative until late in 1902. Its total authorized capital is fifty-four millions, and nine million dollars' worth of bonds have been issued. Lewis Nixon, of New York, is head

the trust, and it includes all of the ig shipbuilding concerns in the United States, even the Union Iron Works of San Francisco. The recent difficulties n the Cramp Shipbuilding Co., may save been the cause of the present trouble.

Herring-Hall-Marvin Safe Co., New York.

Gentlemen: We thank you very kindly for your prompt attention in sending one of your men to open our safe this morning. We also wish to congratulate you upon the quality of your burgiar-proof safe, as the burgiars who entered our place must have worked all night and could not open the doors, and left without accomplishing their purposes. When the detectives arrived this morning to inspect the work, they claimed it was done by professional cracksmen and told us that if it had been a safe of any other make the burglars would have got in by the way they worked on our safe. We thought we would write you this good news as we consider ourselves fortunate. We will send the door to your factory this afternoon and kindly see that it is repaired and returned to us as speedlly as possible. We remain,

Yours respectfully, GRIFENHAGEN BROS & CO., Inc. (Signed) M. S. Grifenhagen, President. (Signed)
